Putting sustainable products within your reach.

EarthSaver Classification Program.

We pride ourselves on making sustainable product choices easy. Our EarthSaver classification helps you to identify products that meet the following strict criteria:

- **Recycled content**
  Products that contain at least 20% recycled materials

- **End of Life Management**
  Products that are at least 70% recyclable, biodegradable, degradable or compostable

- **Low Ecological Footprint**
  Products that are certified organic and/or biodynamic

- **Sustainable Source**
  Products that come from a sustainable source: FSC, PEFC and AFS Certified; Fairtrade, Rainforest Alliance and UTZ Certified.

- **Energy Conservation / Greenhouse Benefit**
  Products that consume or use less energy to achieve the same results as standard comparable products; and products that are able to demonstrate clear and significant energy savings in the manufacturing process.
