1. Your employees will be able to upgrade their skills and knowledge to become project managers and gain expertise in engineering. The course fees are under the HECS loan scheme.

2. This rigorous academic degree, developed with and approved by the UWS School of Computing, Engineering and Mathematics, offers a pathway to the UWS Bachelor of Engineering with advanced standing of 12 to 16 units (1 ½ to 2 years of study) towards the Bachelor of Engineering.

3. Graduates of the Associate Degree in Engineering will have fulfilled the graduate requirements for accreditation as an Engineering Associate with Engineers Australia.

4. Developed with industry consultation, the associate degree is a highly industry-focused degree with at least 30% of content delivered by industry experts and specialist guest lecturers.

5. The focus on practical components of the course, including project work, will be determined by the specific needs and aspirations of the student cohort in each intake.

6. Additional academic support (English, maths and science) will be offered according to the specific needs of the student cohort.

7. With a limited student cohort and adopting the successful intensive mode of teaching in the Diploma Program, the Associate Degree in Engineering offers small group tuition which offers students more face-to-face teaching time and consultative access to teaching staff than is typical in a university undergraduate environment.

8. Students will be in a selective cohort of their peers in terms of industry experience (as opposed to a cohort of mostly school-leavers in a first-year Bachelor program).

9. A wholly-owned entity of UWS, UWSCollege already has extensive experience teaching Engineering in the Diploma Program with an excellent track record of graduate academic results in the UWS Bachelor of Engineering.

10. UWSCollege is already fully equipped to deliver first year units of the Bachelor of Engineering and has state-of-the-art equipment to deliver additional units for the associate degree.

UWSCollege (CRICOS Code 02851G) is a wholly-owned entity of the University of Western Sydney (CRICOS Code 00917K)

Funded by the Australian Government Department of Education, Employment and Workplace Relations.
