Promote your nursing and midwifery career with UWS

The School of Nursing and Midwifery suite of postgraduate courses encourages critical examination of key issues such as existing nursing knowledge, the evidence-based perspective of practice, the measurement of outcomes and the consumer movement.

Each course prepares nurses and midwives with leadership skills to plan, implement, coordinate and evaluate health care, as well as formulate policy for a diverse and multicultural society.

The University of Western Sydney (UWS) makes use of flexible teaching delivery options developed by experienced teaching staff, and provides for a range of individual career pathways in child and family health, mental health leadership, education roles and management positions within industry, government or independent professional practice.

Collaborative relationships and partnerships between nurses and midwives, multidisciplinary colleagues and stakeholders in the health care sectors are highly valued elements of these UWS courses.

Students are challenged to conceptualise and articulate their unique contribution to nursing and midwifery in health care settings, to ask difficult questions and actively seek answers.

Career Opportunities

Many students enrol in postgraduate nursing and midwifery studies to enhance professional status and career opportunities in their chosen fields with their current employers or to enhance mobility within their sectors.

NURSING AND MIDWIFERY

Amina Elshafei

Master of Child and Family Health (Karitane)

Straight out of high school, Amina Elshafei followed in her mother’s footsteps by studying a nursing degree. She became a registered nurse in 2008 and started a graduate program at the Children’s Hospital in Westmead.

In her third year of working as a nurse, she decided to push herself up the ladder and further her education by returning to university to study a Masters of Child and Family Health at the University of Western Sydney, graduating in 2012.

‘I’m really happy I did the Masters because it’s really opened my avenues for further development, as well as to further my career if I choose to,’ she says.

In 2012 Amina was honoured with the Woman of the Year award at the Australian Muslim Achievement Awards 2012. As a proud Muslim-Australian woman, Amina wore her hijab during her stint on Masterchef, and unexpectedly, had a hugely positive impact on the way Muslims are viewed in Australia.

‘When it comes to nursing I’m still trying to improve my knowledge and my development in the clinical setting,’ she says. ‘Nursing is so dynamic, there’s always something to do and learn.’

Master of Child and Family Health (Karitane) 4713

The Master of Child and Family Health (Karitane) aims to provide Registered Nurses and Registered Midwives with theoretical knowledge and associated skills that prepare them to work autonomously and across a variety of clinical settings with children and families. Graduates will be able to apply advanced nursing practice, concepts and analysis and lead nursing practice to promote optimal health outcomes for children and families. This will involve among other things, design, implementation and evaluation of advanced clinical nursing care systems, analysis and synthesis of nursing concepts leading to a basis for advanced nursing practice and the facilitation of change. Opportunities will be provided for students to undertake in-depth study into aspects of child and family health relevant to their specific areas of practice.

Students will also complete a total of 160 hours of clinical placement in a variety of settings across primary, secondary and tertiary level facilities. Students will need to meet the requirements of their health ministry to be eligible for placement.

The unit Partnership in Practice 400830 includes a compulsory five day face to face workshop for students to complete the Family Partnership Core Training.

The Family Partnership Foundation course enables child and family health nurses to work in partnership with parents, families and carers. The five day course introduces the Family Partnership Model (FPM), and participants become actively engaged in the helping process assisting clients to achieve positive changes and improve outcomes. The process of helping is a deliberate attempt to move away from an expert led model to a more strengths based approach where outcomes are negotiated between the client and the child and family health nurse. In NSW the FPM foundation course is a professional requirement for child and family health nurses.

Study Mode: Three years part-time. Multi-Modal.

Inherent requirements

Inherent requirements for this course can be viewed via the following link: uws.edu.au/ir/inherent_requirements/inherent_requirements_for_postgraduate_nursing_courses

Admission

Candidature for admission to the Master of Child & Family Health (Karitane) is based on the following requirements:

- Registered Nurse or Midwife (currently registered to practice with the Australian Health Practitioner Regulation Agency – Nursing and Midwifery). Any other type of registration (non-practicing, limited, or student) is not acceptable for this course

AND

- Completion of an undergraduate degree in health-related sciences (AQF Level 7 or equivalent), such as health science, human science, midwifery, naturopathy, nursing, nutrition, psychology

AND

- One year full-time equivalent work experience as a registered nurse or registered midwife within the last five years.

- Applicants seeking admission on the basis of work experience MUST support their application with a statement of service for all work experience listed on the application.

- Applicants who have undertaken studies overseas may have to provide proof of proficiency in English. Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to UWS should also use the information provided on the UAC website: uac.edu.au/postgraduate

Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.

Course Structure

Qualification for this award requires the successful completion of 120 credit points including the units listed below.

And two elective units.
Graduate Diploma in Child and Family Health (Karitane) 4714

The Graduate Diploma in Child & Family Health (Karitane) aims to provide Registered Nurses and Registered Midwives with theoretical knowledge and associated skills that prepare them to work autonomously and across a variety of clinical settings with children and families. Graduates will be able to apply advanced nursing practice, concepts and analysis and lead nursing practice to promote optimal health outcomes for children and families. Students who successfully complete this course may transfer into the Master of Child and Family Health (Karitane).

Study Mode: Two years part-time. Multi-Modal.

Inherent requirements

Inherent requirements for this course can be viewed via the following link.

Inherent Requirements

Admission

Candidature for admission to the Master of Child & Family Health (Karitane) is based on the following requirements:

- Registered Nurse or Midwife (currently registered to practice with the Australian Health Practitioner Regulation Agency – Nursing and Midwifery). Any other type of registration (non-practicing, limited, or student) is not acceptable for this course

And

- Completion of an undergraduate degree (AQF Level 7 or equivalent) in any discipline

And

- One year full-time equivalent work experience as a registered nurse or registered midwife within the last five years.

- Applicants seeking admission on the basis of work experience MUST support their application with a statement of service for all work experience listed on the application.

- Applicants who have undertaken studies overseas may have to provide proof of proficiency in English.

Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to UWS should also use the information provided on the UAC website.

UAC

Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.

Graduate Certificate in Child and Family Health (Karitane) 4715

The Graduate Certificate in Child & Family Health (Karitane) aims to provide Registered Nurses and Registered Midwives with theoretical knowledge and associated skills that prepare them to work autonomously and across a variety of clinical settings with children and families. Graduates will be able to apply advanced nursing concepts and analysis to promote optimal health outcomes for children and families.
Ana Zotelo
Clinical Care Coordinator,
Fairfield Community Mental Health Service

Ana gained her Mental Health Nurse Practitioner qualification at UWS because she felt welcomed as a mature student and valued for her experience and skills. ‘UWS considered my previous education and accredited me for a range of subjects that I had done before. Its course admission requirements are flexible and its fees are affordable. Moreover, UWS has a number of campuses which are located in areas accessible to people like me who live and work in the west of Sydney.

Staff and students have a special focus on nursing to overcome the many challenges faced by modern society. The staff have always been willing to assist and provide me with support when I needed it.

My studies at UWS have provided me with opportunities to acquire knowledge and skills at graduate level across a range of subjects, especially when contemporary trends and developments in the delivery of health care have brought about an expansion of the nurse’s role and responsibilities. They have also facilitated a reflection on my beliefs, values and attitudes about nursing.

I would recommend study at UWS without hesitation.’

families. Students who successfully complete this course may transfer into the Graduate Diploma in Child and Family Health (Karitane).

Study Mode: One year part-time, Multi-Modal.

Admission

Candidature for admission to the Graduate Certificate in Child & Family Health (Karitane) is based on the following requirements:

• Registered Nurse or Midwife (currently registered to practice with the Australian Health Practitioner Regulation Agency - Nursing and Midwifery). Any other type of registration (non-practicing, limited, or student) is not acceptable for this course.

And

• One year full-time equivalent work experience as a registered nurse or registered midwife within the last five years.

• Applicants seeking admission on the basis of work experience MUST support their application with a statement of service for all work experience listed on the application.

• Applicants who have undertaken studies overseas may have to provide proof of proficiency in English. Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website.

• Local applicants applying directly to UWS should also use the information provided on the UAC Website. website.

UAC

Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOQSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.

Master of Mental Health Nursing (Nurse Practitioner) 4673

Nurse Practitioners are expected to be clinical leaders who work autonomously from a sound evidence base, instigate diagnostic investigations, prescribe medication within an approved formulary, and refer judiciously. Students of this course undertake units of study that will prepare them for the role of Nurse Practitioner in the specialist area of mental health. This study program incorporates areas of advanced health assessment, clinical leadership, evidence-based nursing, diagnostic skills, therapeutic management, psychopharmacology, evaluation and collaboration in care. Students also have the opportunity to complete specialist electives to suit their particular practice setting.

Study Mode: Four years part-time, Distance.

Accreditation

The Master of Mental Health Nursing (Nurse Practitioner) was initially accredited by the Nursing and Midwifery Board of Australia (NMBA). From 1st July 2010 the approval, recognition and accreditation of courses has been transferred to the Australian Nursing and Midwifery Accreditation Council (ANMAC). Course accreditation can be checked on their website. nursingleadersboards.gov.au/Accreditation.aspx

Inherent requirements

There are inherent requirements for this course that you must meet in order to complete your course and graduate. Make sure you read and understand the requirements for this course online.

Inherent Requirements

Admission

All applicants must meet the following criteria to be eligible for entry:

• Registered Nurse or Midwife (currently registered with the Australian Health Practitioner Regulation Agency – Nursing and Midwifery)

• An undergraduate degree in Nursing or Health Science (Nursing) or minimum of five years full-time equivalent work experience in mental health nursing and graduate certificate in mental health nursing and

• Three years full-time equivalent work experience as a registered nurse, of which 12 months full-time equivalent is in an advanced clinical role in mental health

• Applicants seeking admission on the basis of work experience MUST support their application with a Statement of Service for all work experience listed on the application.

Statement of Service

Successful applicants will need to arrange the following:

• Submission to the University of evidence of current clinical practice in an advanced clinical role in mental health, confirmed via 2 referee reports and

• Access to complete clinical experience in a mental health setting (as approved by the School or Nursing and Midwifery) and

• Contract with a University approved primary
supervisor/mentor/assessor (PSMA) to meet the requirements of the course.

• Applications from Australian and New Zealand citizens and holders of permanent resident visas must be made via the Universities Admissions Centre (UAC).

• Applicants who have undertaken studies overseas may have to provide proof of proficiency in English.

Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to UWS should also use the information provided on the UAC website.

• uac.edu.au

• Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.

Course Structure

Qualification for this award requires the successful completion of 160 credit points which include the units listed in the recommended sequence above. Students may exit with a Master of Mental Health Nursing on completion of the relevant units.

Master of Mental Health Nursing 4719

This course provides students with the theoretical knowledge and critical thinking skills to prepare them for advanced practice in mental health nursing, across a range of health care settings. Graduates will be able to apply advanced practice, concepts and analysis in mental health nursing to promote optimal health outcomes for clients with mental illness. Opportunities will be provided for students to undertake in-depth study into aspects of mental health and mental illness relevant to their specific area of practice.

Study Mode: One and a half years full-time or three years part-time. Distance.

Inherent requirements

There are inherent requirements for this course that you must meet in order to complete your course and graduate. Make sure you read and understand the requirements for this course online.

Inherent Requirements

Graduate Certificate in Mental Health Nursing 4721

The aim of this course is for a graduate to possess necessary knowledge and clinical skills to practice mental health nursing skilfully and within ethical and legal boundaries, and who can think abstractly and critically. The course encourages critical examination of current issues in mental health within national strategic directions for mental health care. Students gain understandings of how to use the self-therapeutically, and the experiences of people who have mental illnesses, disorders and crises. Students who successfully complete this course may transfer into the Graduate Diploma in Mental Health Nursing.

Study Mode: Six months full-time or one year part-time. Distance.

OR

- Completion of a Graduate Certificate in Mental Health Nursing (AQF Level 8 or equivalent)

AND

- One year full-time equivalent work experience as a registered nurse or registered midwife within the last five years.

- Applicants seeking admission on the basis of work experience must support their application with a statement of service for all work experience listed on the application.

Statement of Service

- Applicants from Australian and New Zealand citizens and holders of permanent resident visas must be made via the Universities Admissions Centre (UAC).

- Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.

Master of Nursing 4722

The aim of the Master of Nursing is to provide Registered Nurses with the theoretical knowledge and critical thinking skills to prepare them for advanced practice in the clinical setting. Students will be able to align their career goals with one of a number of professional pathways. Specialisations available include clinical leadership, clinical teaching, aged care, primary health care or research studies. Opportunities will be provided for students in their final sessions of study to synthesise and apply advanced nursing concepts through a capstone experience or research project relevant to their professional goals.

Study Mode: One and a half years full-time or three years part-time. Parramatta Campus. Distance.

Inherent requirements

There are inherent requirements for this course that you must meet in order to complete your course and graduate. Make sure you read and understand the requirements for this course online.

Inherent Requirements

Admission

- Candidature for admission to the Master of Nursing and the various specialisations are detailed below:
- Registered Nurse (currently registered with the Australian Health Practitioner Regulation Agency – Nursing and Midwifery), or eligibility for same, or certificate of registration of nursing, within the last five years, in their own country. Any other type of registration (non-practicing, limited, or student) is not acceptable for this course.

And

- Completion of an undergraduate degree in health-related sciences (AQF Level 7 or equivalent), in health science, human science, midwifery, naturopathy, nursing, nutrition, psychology

Or

- Completion of a Graduate Diploma in Nursing (AQF Level 8 or equivalent)

And

- One year full-time equivalent work experience as a registered nurse or registered midwife within the last five years.

- Applicants seeking admission on the basis of work experience MUST support their application with a statement of service for all work experience listed on the application.

Statement of Service

- Applicants from Australian and New Zealand citizens and holders of permanent resident visas must be made via the Universities Admissions Centre (UAC): uac.edu.au/postgraduate

- Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.
• Applicants who have undertaken studies overseas may have to provide proof of proficiency in English. Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to UWS should also use the information provided on the UAC website.

• Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.

Course Structure
Students may complete the Master of Nursing (no specialisation) below or may enrol in and complete one of the listed Specialisations. And three elective units.

Postgraduate Specialisation – Clinical Leadership
UWS Specialisation Code: ST4014.1
The Clinical Leadership specialisation provides students with an opportunity for clinical nurse leaders (expert clinicians, nurse managers) and aspiring nurse leaders to gain formal education in contemporary clinical leadership to support them to facilitate nursing excellence within the clinical practice environment. Graduates who complete the Clinical Leadership specialisation will be prepared to take on clinical leadership roles such as clinical nurse specialist, nurse educator and clinical nurse consultant.

Specialisation Structure
Qualification for this award requires the successful completion of 120 credit points including the units listed below. And three elective units.

Postgraduate Specialisation – Clinical Teaching
UWS Specialisation Code: ST4015.1
The Clinical Teaching specialisation provides students with an opportunity to gain formal education in clinical teaching to either enhance their existing teaching experience or provide skill development in this area. Graduates who complete the Clinical Teaching specialisation will be prepared to take on a leadership role in clinical teaching in roles such as clinical nurse educator, nurse educator, clinical nurse specialist and undergraduate placement facilitator.

Specialisation Structure
Qualification for this award requires the successful completion of 120 credit points including the units listed below. And three elective units.

### Postgraduate Specialisation – Aged Care

**UWS Specialisation Code:** ST4016.1

The Aged Care specialisation provides students with an opportunity to gain formal education in contemporary aged care to either enhance their existing clinical experience or provide skill development to facilitate nursing excellence in the provision of quality aged care. Graduates who complete this specialisation in Aged Care will be prepared to take on a leadership role in nursing within aged care services.

**Specialisation Structure**

Qualification for this award requires the successful completion of 120 credit points including the units listed in the table opposite.

And **three elective units**.

### Postgraduate Specialisation – Primary Health Care

**UWS Specialisation Code:** ST4017.1

The Primary Health Care specialisation provides students with an opportunity to gain formal education in primary health care to support them to develop an holistic approach to health care within an integrated, dynamic and complex health system. Graduates of the Primary Health Care specialisation will be prepared to take on leadership roles in health care settings that promote health such as community health services, schools and medical centres.

**Specialisation Structure**

Qualification for this award requires the successful completion of 120 credit points including the units listed below.

And **three elective units**.

### Postgraduate Specialisation – Research Studies

**UWS Specialisation Code:** ST4018.1

The Research specialisation provides students with foundation level research training that will support them to increase their involvement in research within the clinical setting or seek admission to a research higher degree. Graduates who complete the Research Studies specialisation will be prepared to function as an active member of a research team or seek admission to a higher degree research program.

**Specialisation Structure**

Qualification for this award requires the successful completion of 120 credit points including the units listed opposite.

And **three elective units**.

### Graduate Diploma in Nursing 4723

The aim of the Graduate Diploma in Nursing is to provide Registered Nurses with the theoretical knowledge and critical thinking skills to prepare them for advanced practice in the clinical setting. Graduates will be able to synthesise and apply advanced nursing concepts in order to lead nursing practice and optimise health outcomes. Students who successfully complete this course may transfer into the Master of Nursing.

**Study Mode**

One year full time or two years part-time. Distance.

**Admission**

- Candidature for admission to the Graduate Diploma in Nursing is based on the following requirements
- Registered Nurse (currently registered to practice with the Australian Health Practitioner Regulation Agency – Nursing and Midwifery), or eligibility for same, or certificate of registration of nursing, within the last five years, in their own country

NURSING AND MIDWIFERY

Graduate Certificate in Primary Health Care 4696
This course aims to provide the opportunity for health, and other professionals with primary health care responsibilities to gain knowledge and understanding of primary health care that will enable leadership in this field. The course provides a focus on the knowledge and behaviour required to be a primary health care provider in a changing community environment. Key knowledge areas include primary health care principles and application and health promotion. Students who successfully complete this course may transfer into the Graduate Diploma in Primary Health Care.

Study Mode: Six months full-time or one year part-time. Distance.

Admission
- Candidature for admission to the Graduate Certificate in Primary Health Care is based on the following requirements:
  - Completion of a professional qualification in health (> AQF Level 6 or equivalent), such as an Advanced Diploma or higher qualification in a discipline such as medicine, dentistry, pharmacy, pathology, optometry, nutrition, human science, naturopathy, complementary medicine, nursing, psychology, health science, sports science or physiotherapy.
  - AND
  - 3 years FTE professional work experience in the health sector.
  - Applicants seeking admission on the basis of work experience MUST support their application with a statement of service for all work experience listed on the application.

Statement of Service
- Applications from Australian and New Zealand citizens and holders of permanent resident visas must be made via the Universities Admissions Centre (UAC).
- Applicants who have undertaken studies overseas may have to provide proof of proficiency in English. Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to UWS should also use the information provided on the UAC website: uac.edu.au/postgraduate
- Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.

Graduate Diploma of Midwifery 4697
The Graduate Diploma in Midwifery is a course for registered nurses wishing to pursue a career in Midwifery. The course combines theory and practice with an emphasis on the art and science of midwifery, health promotion, communication skills, evidenced based practice and models of midwifery care within a primary health care approach. To be eligible for this course students are required to obtain a 12 month position of employment as a midwifery student in an approved maternity hospital. The student must be available for at least 200 hours work per month. A clinical placement is required to be secured in an approved maternity hospital. The student is responsible for the application and securing of a position as a midwifery student in one of the approved hospitals. Recruitment of student midwives occurs during July through a centralised online process and through NSW Ministry of Health at health.nsw.gov.au/nursing/employment/Publications/namo_cifs_rm.pdf
- Applicants for clinical placements must be a registered nurse at the time of attending the interview.
- Applications from Australian citizens and holders of permanent resident visas must be made via the Universities Admissions Centre (UAC).
- Applicants who have undertaken studies overseas may have to provide proof of proficiency in English. Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to UWS should also use the information provided on the UAC website.

Course Structure
Qualification for this award requires the successful completion of 100 credit points including the units listed in the recommended sequence below.

Bachelor of Nursing (Graduate Entry) 4692
This course prepares graduates for eligibility to apply for registration throughout Australia as beginning professional generalist registered nurses. The focus of the course is on inquiry-based learning, critical thinking and reflective practice in relation to the theory and practice of nursing in health and health breakdown across the lifespan. Using a primary health care framework students study application of physical and behavioural sciences to nursing; inquiry and evidence-based practice principles and utilisation within nursing; nursing care of individuals, families and groups from diverse backgrounds across the lifespan. The acquisition of nursing knowledge and skills occurs initially in campus-based simulated clinical practice settings and consolidation occurs as students undertake clinical placements in a variety of health care settings.

The Bachelor of Nursing (Graduate Entry) is offered as a two year course beginning with an intensive, fulltime unit of study that supports student transition into second year of the 4691 Bachelor Nursing program.

Prospective students should be aware that full disclosure of any issues of impairment or misconduct is a declaration requirement when applying for registration as a registered nurse. An English language skills registration standard is also applicable to all students applying for registration: nursingmidwiferyboard.gov.au

Study Mode
Two years full time. Hawkesbury.

Advanced standing
Additional advanced standing is not normally granted.

Accreditation
The Bachelor of Nursing (Graduate Entry) has accreditation and approval from the Nursing and Midwifery Board of Australia (NMBA) which is a partner board of the Australian Health Practitioners Registration Authority (AHPRA). Course accreditation can be checked on their website. nursingmidwiferyboard.gov.au/Accreditation.aspx. Please note: as from 1 July 2010 practitioners applying for registration as a nurse for the first time in Australia are required to demonstrate English language proficiency as specified by the Nursing and Midwifery Board of Australia (NMBA). These requirements include:

a) the IELTS examination (academic module) with a minimum score of 7 in each of the four components (listening, reading, writing and speaking); or
b) Completion and an overall pass in the Occupational English Test (OET) with grades A or B only in each of the four components. For further details, refer to the website. nursingmidwiferyboard.gov.au/Registration-Standards.aspx

Admission
• Applicants must have successfully completed an (AEI-NOOSR equivalent) undergraduate degree in biological sciences OR arts/behavioural science OR 3 year post secondary qualification as a registered nurse (completed within the last 10 years).
• Applications from Australian and New Zealand citizens and holders of permanent resident visas must be made via the Universities Admissions Centre (UAC).
• Applicants who have undertaken studies overseas may have to provide proof of proficiency in English. Local and International applicants who are applying through the Universities Admissions Centre (UAC) will find details of minimum English proficiency requirements and acceptable proof on the UAC website. Local applicants applying directly to UWS should also use the information provided on the UAC website: uac.edu.au/postgraduate
• International applicants must apply directly to the University of Western Sydney via UWS International.
• International students applying to UWS through UWS International can find details of minimum English proficiency requirements and acceptable proof on the UWS International website: uws.edu.au/international
• Overseas qualifications must be deemed by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) to be equivalent to Australian qualifications in order to be considered by UAC and UWS.

Special Requirements
Prerequisites
Students will need to have completed all of the special requirements before commencement of any Professional Practice Experience unit. Units with special requirements will remain invalid until these requirements are met. At present special requirements include: Working with Children Check Student Declaration; National Police Certificate; Adult Health Immunisation Schedule; and a Senior First Aid Certificate. International students also need to provide a Police Check (with English translation) from their home country and any other country where they have lived. Students who have not completed the special requirements prerequisites will not be able to enrol in Professional Practice Experience units and as a consequence are not permitted to attend professional practice placements.

Course Structure
Qualification for this award requires the successful completion of 170 credit points including the units listed in the recommended sequence opposite.

Additional Core Unit for Students with an Exceptional Study Pattern:
To ensure currency of skill base, it is an accreditation requirement that students satisfactorily complete a minimum 4 week clinical practicum in the final session of their pre-registration Nursing program. Students within the Bachelor of Nursing Graduate Entry (BNGE) who vary their study sequence significantly from the normal progression may be required to study the additional unit listed below and should discuss this with the BNGE Academic Course Advisor (ACA).

Professional Practice Experience
The Professional Practice Experience is the foundation for student learning in the course. It consists of three major learning contexts for students: professional practice, service learning, and simulation. Professional practice in the health care sector may take place in any level of the health service appropriate to the focus for the specific Professional Practice Experience unit, for example aged care facilities, hospitals, GP practices, community health teams. This environment is essential to provide students with the complexity of the nursing experience, the ability to apply learning in situations involving ill persons, and socialises students into the work domain.

Simulation is where aspects of the professional practice environment, such as a hospital ward or patient, are artificially created to enable students to learn in a safe, non-threatening environment. Clinical practice units, simulated professional practice environments, will be used that allow students to undertake learning activities, such as administering medications and oxygen therapy. The School has a wide range of simulation equipment and dedicated high fidelity simulation rooms on each campus.
Recognition of prior learning
The University accepts that learning takes place in a broad range of contexts – formal study, in the workplace and from life experience. The granting of Advanced Standing for prior learning ensures that students commence study at a level that appropriately recognises their previous learning experiences, and are not required to repeat equivalent successful learning activities undertaken in another context. The University wishes to ensure that students gain an award in the least time possible while adhering to the requirements for the conferring of that award. However, at least 50% of the credit points required to gain a postgraduate award must be achieved through formal study at UWS.

Recognition of prior learning will be assessed on an individual basis and may be offered for the following:
• Clinical Experience
• Clinical Professional Development hours
• Continuing Professional Education
• Previous Postgraduate Studies

Study at home
Most courses are available for study at home if distance mode is selected.

Advanced standing
Students are advised to check eligibility of recognised prior learning by emailing postgraduatestudy@uws.edu.au

Commonwealth Supported Places
All Nursing and Midwifery courses offer Commonwealth Supported Places (CSP) for domestic students, with the exception of the Master and Graduate Diploma in Primary Health Care.

How to apply
Postgraduate course applications are processed online through the Universities Admissions Centre (UAC) at uac.edu.au/postgraduate

Further information on postgraduate courses and the application procedure is available at myfuture.uws.edu.au

For international students
Part-time mode for these courses is not available to international students due to Australian student visa regulations. International students need to apply directly to the University. Application forms and information on admission are available at uws.edu.au/international/admissions

For information about studying at UWS, including courses, tuition fees, English requirements, intakes, assessment methods, accommodation options, and living in Australia, please visit uws.edu.au/international

English proficiency requirements
If you have undertaken studies overseas you may have to provide proof of proficiency in English. Minimum English proficiency requirements and acceptable proof can be found on the Universities Admissions Centre website (UAC) at uac.edu.au/postgraduate

Overseas qualifications must be deemed equivalent by the Australian Education International – National Office of Overseas Skills Recognition (AEI-NOOSR) in order to be considered by UAC and UWS.
